**Membership Fees:** The board reviewed the fee structure and benefits of economic development associations across the country. There was discussion on whether CNED should have a nominal fee such a \$5 or a substantial fee like other organizations in order to organize some useful events for members. It was thought that an annual fee in the order of \$100 to \$125 could be considered and presented to a general meeting in the fall along with budget for the 2012-13 year.
